

# People Insights Platform

A next generation employee listening and action platform, to move your organization forward

## Drive Transformative Change

Unlock the power of employee feedback with the Perceptyx People Insights Platform—an all-in-one solution built for enterprise organizations. Seamlessly integrating multiple feedback sources, it provides immediate insights, AI-driven guidance, recommended research, alerts, customizable dashboards, and tools for in-depth analysis. Tailored for the unique needs of managers, leaders, and HR teams, the platform paves the way for transformative change through an engaging employee experience.

A **Centralized Point of Access** for creating, launching, and managing all of your listening events to support your employee listening strategy.

**Curated Research** from our in-house team of EX experts, to help you address the unique needs of your people.

The **AI Insights Engine** offers valuable insights and a deeper understanding of employee feedback from across multiple listening events.

With **Analytics Studio**, effortlessly craft and share custom dashboards tailored to your people and their unique areas of focus.

**Alerts and Notifications** let you know when action is required, and updates dynamically based on new insights and action items.

The **AI Hub** offers access to Perceptyx's AI models, so you can import and analyze employee qualitative feedback from any source.

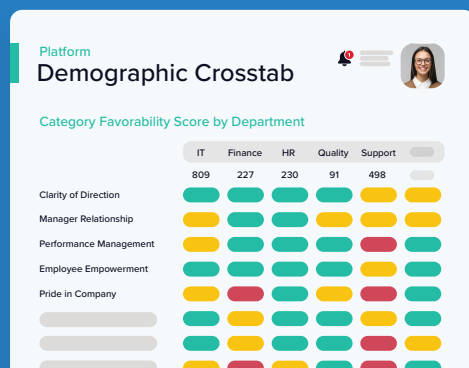

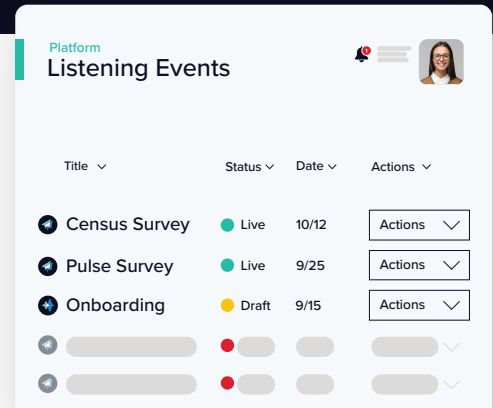

# Close the Gap Between **Insights** and **Action**

Turn intention into impact using AI-powered recommendations to inspire action that results in a better employee experience and a healthier, more productive organization.

## Listen with ease

Integrated listening channels collect employee data into a single unified platform

- Launch and administer all of your listening activities seamlessly from a single hub
- Gain a broad but precise view of key learnings from across your organization
- Connect your listening program into the fabric of your organization through HRIS connectors and APIs

## Focused insights

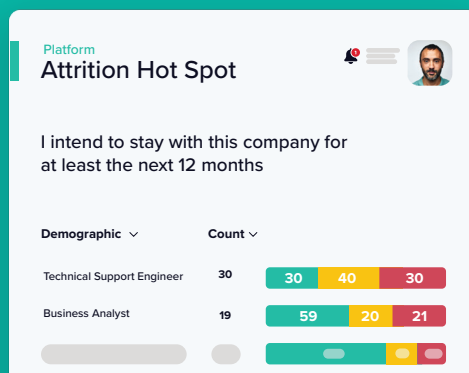

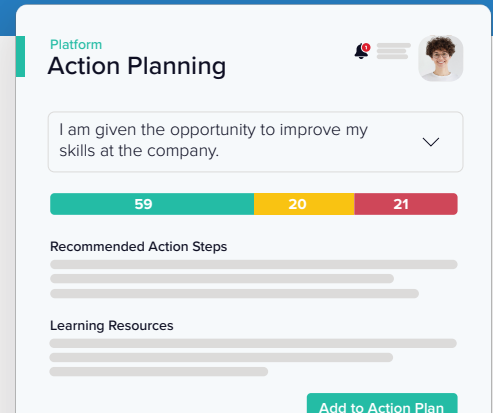

Identify key areas of opportunity across your organization

- Identify demographic subgroups who experience your organization differently
- Benchmarks composed of data from over 500 science-backed items, aligned to the Insights & Action framework for driving behavioral change and achieving organizational goals
- Quickly interpret written feedback with AI-powered comment analytics

## Take the right action

AI-powered recommendations and coaching to inspire and influence change

- Synthesize insights with personalized dashboards and reports
- Identify where and how to take action that ensures the greatest impact
- Actionable recommendations curated by employee experience experts

## Powerful impact

Demonstrate impact against key people initiatives to deliver a great employee experience and better business outcomes

- Continuous data collection and insights identify where your program has had the biggest impact
- Simplified reporting keeps you informed of progress towards driving primary outcomes of interest

Find out why nearly one-third of the Fortune 100 already use Perceptyx and why 95% of organizations that come to us, stay with us.

Only Perceptyx makes all this possible, so you can finally **See the Way Forward.**
